

## 1:1 Coaching / 2024

---

This is what **Netflix director of 'One Piece'** had to say after their recent experience of a 1:1 Coaching With me.

I value enormously the coaching sessions I have with Will.

He has a truly remarkable ability to **listen** and **stand with you** in your questions - personal and professional. I loved that it always felt like he journeyed with me through our conversations, asking **deeply perceptive** questions, with **respect, care and generosity**, and always with the purpose of helping me gain more insight into myself and the questions I hold.

Through his **wisdom and understanding**, he supported me through some big turning points, for which I will always be grateful.

I highly recommend his work to anyone wishing to talk through thoughts, questions and directions in life, whatever your profession.
